# Introduction

This task-based English course is based on the Common European Framework of Reference and is designed for learners studying English for Grade 7, L2.

The course develops all four skills (listening, speaking, reading and writing) through a variety of communicative tasks, and systematically recycles key language items. Above all, it is designed to promote active (activating all new vocabulary and structures in meaningful, everyday situations), holistic (encouraging the creative collective use of students' brains as well as the linguistic analytical use of their brains) and humanistic (acquiring and practising language through pleasant tasks and topics, paying attention to their needs, feelings and desires) ways of learning.

The course consists of:

- The Student's Book which contains: a *Welcome back!* unit as well as six *modules* of six lessons each. There is also a *Fun Time* section and a *Revision* section at the end of each module. There is also a cartoon story at the end of every two modules. At the back of the book there is a *Festivities* section and an *Evaluation* section with revision exercises.
- The Workbook which contains exercises to revise vocabulary and grammar structures presented in the Student's Book.

## COURSE COMPONENTS

### Student's Book

The Student's Book is in full colour. Each module is based on a single theme and the topics covered are of general interest. All modules follow the same basic structure (see Elements of a Module). Many tasks included in the Student's Book are multi-sensory, enabling students to practise all four language skills as they complete the task.

### Workbook

The Workbook is in full colour and is divided into two parts. The first part, the Workbook, contains modules corresponding to those in the Student's Book containing practice in Vocabulary, Everyday English, Reading Comprehension, and Writing. All the exercises in the Workbook are marked with graded level of difficulty (\*, \*\*). The second part, the Grammar, summarizes and reviews the specific grammar items dealt with in each unit of the course and offers additional exercises.

### Teacher's Book

The Teacher's Book contains detailed teacher's notes, which provide:

- the objectives of each module clearly and concisely
- step-by-step lesson plans and suggestions on how to present the material
- a full key to the exercises in the Student's Book & Workbook.

- audioscripts of all listening material
- evaluation sheets

### Class Audio CDs

The Class Audio CDs contain all the recorded material which accompanies the course.

### Digital Book

The Digital Book contains all the material in the Student's Book and helps students monitor their progress and improve their stats, which are recorded and stored so that they can be accessed at any time.

## ELEMENTS OF A MODULE

Each module starts with a module presentation page to familiarise students with the language and patterns in the module. The module presentation pages also whet students' appetites by familiarising them with some of the text types, pictures and activities found in the coming module.

Each module contains the sections described below.

### Vocabulary

Vocabulary is introduced in a functional and meaningful context. It is practised through a variety of exercises such as picture-word association and completing set phrases in order to help students use everyday English correctly.

### Reading

Each module contains a wide variety of reading texts such as emails, text messages, letters, articles, poems, etc. These allow skills, such as reading for gist and reading for specific information, to be systematically practised.

### Grammar

The grammar items taught in each module are first presented in context, then highlighted and clarified by means of clear, concise theory boxes. Specific exercises and activities methodically reinforce students' understanding and mastery of each item. The Workbook contains a detailed explanation of each grammar point.

### Listening

Students develop their listening skills through a variety of tasks which employ the vocabulary and grammar practised in the module in realistic contexts. This reinforces students' understanding of the language taught in the module.

### Speaking

Controlled speaking activities have been carefully designed to allow students guided practice before leading them to less structured speaking activities.

### Everyday English

Functional dialogues set in everyday contexts familiarise students with natural language. The dialogues also present useful expressions so that students can practise everyday English.

### Pronunciation

Pronunciation activities help students to recognise the various sounds of the English language, distinguish between them and reproduce them correctly.

### Fun Time

This section contains activities for Ss to review the content of each module as well as songs. The songs are connected to the themes of the modules as well as related tasks. Listening to lively, high quality songs is a humanistic activity which lowers the students' affective filters and allows them to absorb language more easily.

### Study Skills

Brief tips, explanations and reminders, at various points throughout each module, help students to develop strategies which improve holistic learning skills and enable students to become autonomous learners of the English language.

**Check these words sections** can be treated as follows: Go through the list of words before Ss read the text and present the new words by giving examples, synonyms/opposites or miming their meaning. Alternatively, go through the list of words after Ss have read the text and ask Ss to explain the words using the context they appear in. Ss can give examples, mime/draw the meaning or look up the meaning in their dictionaries.

### Writing

Students develop their writing skills through the use of all four language skills.

Guided practice of the relevant vocabulary is given and consolidated and followed by a model text which is thoroughly analysed. Plans are also provided to guide students.

There are writing activities throughout the modules, based on realistic types and styles of writing, such as letters, notes, postcards and emails.

These progress from short sentences to paragraphs and finally to full texts, allowing students to gradually build up their writing skills.

### Across Cultures section

In these interesting and informative pages, students are provided with cross-cultural information and read about aspects of various countries which are thematically linked to the module. The section also contains related tasks and creative projects, such as making a poster, which give

students the chance to process the information they have learnt and compare it to the culture of their own country.

### Revision

This section appears at the end of each module, and reinforces students' understanding of the topics, vocabulary and structures that have been presented.

### Monstertrackers

This section appears every two modules and is designed to introduce Ss to reading for pleasure. It is an amusing science-fiction cartoon strip following the adventures of four characters as they track down monsters all around the world. Ss should readily identify with nature-loving Candy, technical Phil and adventurous Tracker along with their buggy, Boogey, who can transform into any mode of transport.

### Evaluation

This section appears at the end of the book, and reinforces students' understanding of the topics, vocabulary and structures that have been presented every two modules.

## SUGGESTED TEACHING TECHNIQUES

### A – Presenting new vocabulary

Much of the new vocabulary in the course is presented through pictures, and students are asked to match the pictures to listed words. Vocabulary is always presented in context, and emphasis is placed on collocations and word association, since memorising new words is easier when they are presented in lexical sets.

Further techniques that you may use to introduce new vocabulary include:

- *Miming*. Mime the word to be introduced. For instance, to present **sing**, pretend you are singing and ask students to guess the meaning of the word.
- *Synonyms, opposites, paraphrasing and giving definitions*. Examples:
  - Present **store** by giving a synonym: *A store is a shop.*
  - Present **tall** by giving its opposite: *He isn't short, he's tall.*
  - Present **weekend** by paraphrasing it: *I don't work at the weekend. I don't work on Saturday and Sunday.*
  - Present **garage** by giving a definition: *A garage is a place where we put our car, next to the house.*
- *Context*. Place vocabulary items in context with examples which make understanding easier and more complete. For instance, introduce the words **city** and **town** by referring to a city and a town in the students' own country: *Lisbon is a city, but Cascais is a town.*
- *Visual prompts*. Show photographs or drawings to make understanding easier.

- *Use of (bilingual/monolingual) dictionary.* Encourage students to guess the meaning of a word, then use their dictionaries to check if their guess is correct.
- *Sketching.* Draw a simple sketch on the board to illustrate the word(s) to be explained. For instance:

- *Flashcards.* Make flashcards out of magazine or newspaper pictures, photographs, ready drawings and any other visual material which may serve as vocabulary teaching tools.
- *Use of L1.* In a monolingual class, vocabulary can be explained in the students' mother tongue, although this method should be used only in moderation. Students also need to compare their mother tongue to the English language to find similarities and/or differences.

The choice of technique depends on the type of word or expression. For example, it may be easier to describe an action verb through miming, and not through a synonym or definition.

### B – Writing

All writing tasks in the course have been carefully designed to guide students to produce a successful piece of writing.

- Make sure that students understand they are writing for a purpose. Go through the writing task in detail so that students are fully aware of why they are writing and who they are writing to.
- It would be advisable to complete the task orally in class before assigning it as written homework. Students will then feel more confident about producing a complete piece of writing on their own.

### C – Assigning homework

It is recommended that homework is regularly assigned and routinely checked according to the specific needs of the class.

When assigning writing tasks, prepare students as well as possible in advance. This will help them avoid errors and get maximum benefit from the task.

Commonly assigned homework tasks include:

- *Vocabulary.* Students memorise the meaning of words and phrases.
- *Spelling.* Students learn the spelling of particular words without memorising the text in which they appear.

- *Reading aloud.* Assisted by the Digital Book, students practise at home in preparation for reading aloud in class.
- *Writing.* After thorough preparation in class, students are asked to produce a complete piece of writing.

### D – Correcting students' work

All learners make errors; they are part of the process of learning. The way errors are dealt with depends on the activity.

- *Oral accuracy.* In drill work correct students on the spot, either by providing the correct answer and asking them to repeat it, or by indicating the error but allowing students to correct it. Alternatively, indicate the error and ask other students to correct it.
- *Oral fluency.* In pairwork or free-speaking activities allow students to finish the task without interruption, but make a note of the errors made and correct them afterwards.
- *Written work.* Do not over-correct; focus on errors that are directly related to the point of the exercise. When giving feedback you may write the most common errors on the board and help the class to correct them.

Remember that praising students and rewarding good work is of great importance. Post written work on a noticeboard in the classroom or school, or give 'reward' stickers. Praise effort as well as success.

### E – Class organisation

- *Open pairs.* The class focuses its attention on two students doing the assigned task together. Use this technique to provide an example of how the task should be done.
- *Closed pairs.* Pairs of students work together on a task or activity, while the teacher moves around the classroom offering assistance and suggestions. Ensure the task is clearly understood before closed pairwork begins.
- *Stages in pairwork:*
  - Organise students into pairs
  - Set the task and time limit
  - Rehearse the task in open pairs
  - Ask students to do the task in closed pairs
  - Go around the class and help students
  - Pairs report back to the class
- *Groupwork.* Groups of three or more students work together on a task or activity. Class projects or role play are often most easily done in groups. Again, ensure students clearly understand the task in advance.
- *Rolling questions.* A student answers a question, then proceeds to ask a question directed at the next student in turn. This continues around the class.

## TYPES OF LEARNING STYLES

Experienced teachers will be aware that some of their students learn best by listening to new information, some prefer to read about it, whereas other students need to do something with the new information. There is no absolute 'best' method of learning; these are all valid learning styles, as different people learn in different ways. Consequently, a coursebook should offer a variety of exercises and material which stimulate all types of learning style in order to help the learners learn according to their personal learning styles.

- *Visual Learners* need to see the teacher's body language and facial expressions to fully understand the content of the lesson. They think in pictures and learn best from visual displays, including diagrams, illustrations, transparencies, videos, flashcards and hand-outs.
- *Auditory Learners* learn best through verbal explanations, discussions, talking things through and listening to what others have to say. Written information may have little meaning until it is heard. They often benefit from reading a text aloud and using a tablet or their laptop.
- *Tactile/Kinaesthetic Learners* learn best through a hands-on approach, actively exploring the physical world around them. They may find it hard to sit still for long periods and may become distracted by their need for activity and exploration. These learners express themselves through movement. They have a good sense of balance and hand-eye co-ordination. By interacting with the space around them, they are able to remember and process information. Involve them in role play, pairwork and other classroom activities.

## EVALUATION

Evaluation is an essential part in the learning process. It helps the learners recognise their progress in the target language, how much they have achieved and what areas need further practice. The learners' attitude towards their own learning experience is positively influenced as they participate in the whole process. Evaluation also allows teachers to reflect on the validity of their teaching practices and the types of material being used.

The process is divided into three parts: Initial Evaluation at the beginning of the course, Formative Evaluation, which is done on a day-to-day basis, and Cumulative Evaluation, upon finishing a module.

### Initial Evaluation

This evaluation centres mainly on the students' reports from the previous school year. The teacher can assess the students' level, work already covered, work which needs to be covered, strengths/weaknesses, etc.

### Formative Evaluation

Any exercise a student does can be used for this type of evaluation. The results are then recorded on the student's Formative Evaluation Chart.

Make as many photocopies as you need and complete the charts as indicated. Write the names of the activities you are going to evaluate (e.g. dialogues, songs, pairwork, etc.) and write the marks obtained with the help of the following code, using colours if you wish.

- c (competence – green): the student has a full understanding of the task and responds appropriately
- w (working on – yellow): the student has an understanding of the task but the response is not fully accurate
- n (non-competence – red): the student does not understand the task and is unable to respond appropriately

### Cumulative Evaluation

Cumulative evaluation takes into account the work the students have done throughout the module as well as their participation and attitude. The instruments of evaluation are:

- **Student's Self-Assessment Forms:** After the students have completed the Self-Assessment Form section of each module, they fill out the photocopyable Self-Assessment Form, giving their subjective opinion of their own performance. This learning-to-learn technique enables the students to develop awareness of their progress. The Self-Assessment Forms should be kept in their Language Portfolio for future reference. The Self-Assessment Forms are printed at the back of the Teacher's Book.
- **Progress Report Cards:** After students complete each module and take the corresponding test, photocopy the respective Progress Report Card from the Teacher's Book and fill out a card for each student. The students should keep these cards in their Language Portfolio for future reference.

I tried to keep Bob warm and made sure that he didn't move his leg. We had to wait for someone to rescue us. Then, I heard a helicopter. Here are Christmas traditions in three countries around the world: Romania, UK and Italy. In all three countries people get together and have a big meal on Christmas day. In Romania, children go out carol singing from house to house. This tradition is the same in Italy. There is a similar tradition in the UK, the carol service which is a Christmas church service. Also, in Romania there is a drumming band called Dubasi. It is usually a group of unmarried men who play various musical instruments like a saxophone or a violin. They go around the street and give presents while filling the air with Christmas music! Christmas decorations are similar in all three countries. These include a Christmas tree with decorations and lots of Christmas lights. In the UK people also use ivy and mistletoe to decorate their houses. In Italy, it is very common to see a nativity scene. A traditional Christmas meal in Romania includes roast gammon, pork chops and ciorba de perisoare, which is a slightly sour vegetable soup made with fermented bran and pork meatballs. Also, there is sarmale. This is cabbage leaves stuffed with meat and served with polenta. For desert people in Romania eat cozonac a rich fruit bread or Romanian doughnuts called gogosi and cheesecake. In the UK people have roast turkey and roast vegetables with gravy. It is traditional to have brussel sprouts on the Christmas table in the UK. Traditional British Christmas desserts are Christmas pudding, mince pies, lots of chocolates, trifle, and Christmas cake which is similar to the Romanian cozonac. Christmas meals differ a lot in Italy. People in different parts of the country have different traditional dishes for the main course.

## Welcome Back

### Exercise 14 (p. 12)

**Secretary:** Good morning. How can I help?

**Student:** I'm here to register for my identity card.

**Secretary:** Okay. Here is the form. Let's fill it in together. Firstly, what's your name?

**Student:** It's Adam.

**Secretary:** And your surname?

**Student:** Crossley. That's C-R-O-double S-L-E-Y.

**Secretary:** And how old are you, Adam?

**Student:** I'm 15.

**Secretary:** OK, and you're obviously male, so now it's your address I need.

**Student:** I live at number thirty-one, Wood Street, Crowthorne.

**Secretary:** Right. Could you tell me your mobile number, please?

**Student:** It's 07743 5737352.

**Secretary:** In an emergency, who do you want us to contact?

**Student:** My father. His name is Bruce. He has the same surname as I do, and the same address.

**Secretary:** And finally, what's his mobile phone number?

**Student:** It's 07774 635489.

## Module 1

### Exercise 2 (p. 20)

**Derek:** Hi Olivia! You look like you're in a hurry!

**Olivia:** I am. I'm going home to do my chores before my party tomorrow.

**Derek:** Are you usually this busy after school?

**Olivia:** No. I usually watch some TV or listen to music before I have dinner with my family. How about you? Where are you going now?

**Derek:** Well, I usually play tennis with my cousin after school, but he's ill today so I'm going shopping with Terry instead.

**Olivia:** That sounds like fun. Well, got to go now!

**Derek:** OK. Bye!

### Exercise 5 (p. 26)

**Emily:** Hi, Mat! What are you looking at?

**Mat:** It's a photo of me and my cousins, Tony and Robert, on holiday.

**Emily:** It's a nice photo! Is Tony the one with a moustache?

**Mat:** No, that's Robert. Tony's the one with the spiky hair.

**Emily:** I see. Tony looks quite young. How old is he? Seventeen?

**Mat:** Actually, he's 22.

**Emily:** Wow! He looks younger! And how old is Robert? He looks about twenty-eight.

**Mat:** Wrong again! Robert is thirty-five.

**Emily:** Ha ha! It's not my fault everyone in your family looks younger! They seem like really nice people, though.

**Mat:** They are. Robert is really funny and very patient, and Tony is the most honest person I know. The only problem with my younger cousin is that he can be a little rude to people he doesn't know, sometimes. But everyone gets to like him after a short while.

**Emily:** Your cousins sound very interesting. Maybe I can meet them some day!

## Module 2

### Exercise 4 (p. 41)

**Headmaster:**

Settle down everyone. Now there's one more announcement I want to make. This year the annual school show at Blackwood High School is in the hands of our Year 10 Students and they've decided to put on the musical Cats. So I hope everyone will come and see it on the 15th of November at 8 pm in the main hall and tell all your family and friends. Whoever wants tickets should see the school secretary Mrs Green during school hours.

## Module 3

### Exercise 5 (p. 57)

**Emma:** Dan! How are you? I hear you had an accident on your skiing holiday in the French Alps last month!

**Dan:** Can you believe it! I'm OK, but poor Bob's not so good.

**Emma:** What happened?

**Dan:** Well, it was a bright sunny day and we were having a great time whizzing down the slopes. We were both in a great mood, as you can imagine.

**Emma:** Yeah, go on. Then what?

**Dan:** All of a sudden, there was a terrible rumbling sound coming from behind us! It was really scary, I can tell you!

**Emma:** What was it?

**Dan:** An avalanche, of all things! There was a huge mountain of snow rolling down the mountain. It was heading right for us!

**Emma:** What did you do?

**Dan:** We skied as fast as we could to get out of the way, but the force of the snow hit us quite hard! It knocked us both right off our feet!

**Emma:** But you were OK?

**Dan:** Yes, I was fine, but Bob broke his leg.

**Emma:** Did you get help?

**Dan:** Well, I tried to keep Bob calm. I made sure he was warm and that he didn't move his leg. Then, we waited for someone to come and rescue us.

**Emma:** I bet you were really worried.

# Student's Book Audioscripts

**Dan:** I was! I didn't want to spend the night on the mountain!

**Emma:** Of course not! Did someone arrive to help?

**Dan:** After a couple of hours, I heard a helicopter so I started waving to get their attention. Luckily, they saw us and lifted us off the mountain safely.

**Emma:** Thank goodness for that!

**Dan:** You bet! We were so relieved. What an experience!

## Module 4

### Exercise 3 (p. 71)

**Jessica:** What a beautiful house, Mat. It's old and made of stone. I love the river running in front of it. It looks very peaceful.

**Mat:** It is. Inside, there is a lot of old furniture. From the bedroom, you can hear the boats passing by. I love going there.

**Jessica:** Oh? You don't live there?

**Mat:** No, it belongs to my friend Bill. My family lives in a flat. It's very modern. The building has orange bricks and there aren't any trees round it. What about you, Jessica? What's your house like? Do you like it?

**Jessica:** Well, we used to live in the mountains – a wooden chalet covered in snow! But our house we live in now is nice too. It's big and white and has many rooms. In the garden, there's a swimming pool, and a table and chairs nearby.

**Mat:** Hey, your house sounds amazing! Maybe Bill and I can visit you sometime.

**Jessica:** That sounds great!

## Module 5

### Exercise 6 (p. 87)

**Int:** Good morning, I'm from the school newspaper. Does your family have a computer at home?

**Brendan:** Yes.

**Int:** Great. Do you have a few minutes to answer a few questions?

**Brendan:** Sure, go ahead.

**Int:** Thanks! Right, first of all, what's your name?

**Brendan:** Brendan.

**Int:** ... Brendan ... OK, got it. Right, well I'm doing a survey about what people use their computers for. What do you use the computer for, Brendan?

**Brendan:** Oh, that's easy. I sometimes use it to burn CDs, but I mainly use it to play computer games. I love them!

**Int:** OK. What about the other members of your family?

**Brendan:** My little sister Emily loves music, so she burns CDs all the time.

**Int:** Does she download music, too?

**Brendan:** Actually, no. My brother Alan does, though. He knows all the best sites.

**Int:** And your parents? What do they use the computer for?

**Brendan:** Well, actually my mum doesn't really like computers. She says surfing the Internet is a waste of time! She does sometimes send a few emails to her friends, though.

**Int:** And what about your dad?

**Brendan:** Oh, he uses the computer all day at work, so he doesn't use it a lot at home. He sometimes uses it to surf the Internet to find out information, but he never downloads things or plays games or anything like that.

**Int:** OK, thanks very much for your time, Brendan.

**Brendan:** You're welcome.

## Module 6

### Exercise 6 (p. 101)

Good morning. This is Zara Johnson, the head zookeeper at Bristol Zoo. Today, I'm happy to announce that we want to hire five teenagers to work as part-time zookeepers during the summer. The positions are from early June to late August and the successful candidates are going to work Thursdays to Sundays from nine in the morning to two in the afternoon.

So, what type of teen are we looking for to fill these positions? Well, firstly, you must be aged between 14 and 18 and you must attend a local secondary school – somewhere in the Bristol area. Also, you need to be in good shape, as the job is quite physically challenging.

Our teen zookeepers have a number of different duties around the zoo. Firstly, they help out at feeding time. This involves making sure each animal gets the right amount of food at the right time of the day. Teens also help to bathe animals. For example, larger animals such as elephants need to be washed regularly. Also, an important part of a zookeeper's day involves paperwork. Our teen workers take a record of animals' health as well as their eating habits. This information helps vets if an animal has an illness or injury.

To apply for a position in this programme please email us at [jobs@bristolzoo.com](mailto:jobs@bristolzoo.com). Please attach your CV to your email. If you have any questions about the job you can email us at [jobs@bristolzoo.com](mailto:jobs@bristolzoo.com) or call us at 212-234211. The last date for applications is 22 May. Don't miss out on this chance to experience life as a zookeeper! We look forward to hearing from you!

Last summer, my friend John and I went hiking to the mountain. The sun was shining and we were having a great time.

While we were walking along a path, we heard a loud noise. We looked up in the sky and we saw some dark clouds. Suddenly, it started to rain. We both ran to hide but John fell and twisted his ankle. He was in pain and he couldn't move.

I decided to call our parents for help. When they arrived, we felt tired but relieved to be safe.
