-------	--------	--------------

PROGRAMME

09:30 Registration and welcome coffee

10:00 **THE ABCs OF VALUES: INSPIRING VALUES THROUGH ENGLISH LANGUAGE TEACHING**

This seminar emphasises how English teachers can incorporate values into the EFL classroom. Beyond words and grammar, language shapes how we perceive the world and interact with others. By integrating values, such as kindness and empathy, students learn to appreciate diversity and collaborate to make a positive impact on their world. Discover practical strategies for nurturing these values in the classroom and empowering students to become compassionate global citizens.

EXPRESS DIGIPLUS: HARNESSING THE POWER OF AI TOWARDS AN ADAPTIVE LEARNING EXPERIENCE

Let's explore how AI-powered tools can be combined with our language classrooms to enhance language learning and provide a personalised learning path. Through a hands-on approach, we uncover the impact of a unique AI-driven adaptive learning platform on student engagement, performance, and individualized skill development. Let's embrace AI technology in our curriculum for a more responsive learning journey!
